

ATOLLO CLOUD BACKUP

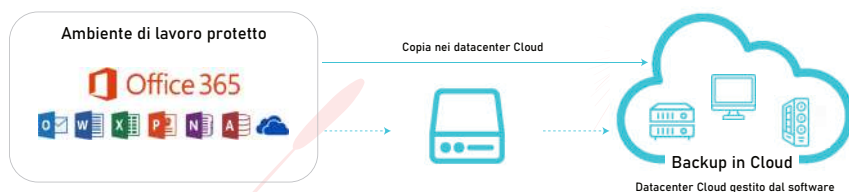

Backup Office365

The VM Backup service is an add-on service that is affiancial to another Backup plan.

More and more companies are moving to the cloud, the adoption of Office365 Exchange Online, Sharepoint Online and OneDrive is increasing. The data in these systems, however, are not safe from human error, such as accidental deletions or malicious attacks such as Cryptovirus or Ransomware or attacks by cyber hackers.

Backing up Office365 data to a cloud other than Microsoft's is the best way to protect it from loss.

Our backup solution gives you absolute peace of mind by creating a backup copy of your files, allowing you to recover them at any time.
